CORPORATE PROFILE

Illumivision Inc. is a Canadian manufacturer of high performance solid-state lighting (SSL) technology.

Illumivision's team of experienced commercial lighting professionals provides powerful, energy-efficient lighting solutions. While maintaining a high standard of customer service, our in-house team of engineers manufactures a range of fixtures and accessories suitable for the needs of our customers. Illumivision employees are experienced and have the industry expertise to provide functional, user-friendly light-emitting diode (LED) technology.

Illumivision understands the necessity for dialogue between manufacturer and client and we take pride in our ability to keep this line of communication open through comprehensive online and phone-based support. This people-based approach is what distinguishes Illumivision from our competitors.

Illumivision's research and development, production, and technical departments allow the manufacturing of appropriate lighting solutions to be finished efficiently and quickly. This is a bonus for industry professionals (architects, lighting designers, engineers and specifiers) who have time-sensitive contracts.

Based in Edmonton, Alberta, Illumivision's team boasts over 50 years of experience in the architectural and promotional lighting markets. Our on-site research and development facility and engineering resources, along with 7,500 square feet of warehouse space, give us the ability to oversee a project from conception to completion, maximizing efficiency and customer satisfaction. Illumivision's self-sufficient manufacturing plant provides the lighting industry with an extensive line of products and accessories. Our cutting-edge niche in this industry is obvious to our clients and soon-to-be customers not only because of our people-based customer service strategy, but also our successful marketing, great inter-department communications, and because of wide-reaching logistical capabilities.

Illumivision's approach combines energy-efficiency and environmental conservation, with high-performance, innovative technology, which results in functional, attractive products- ideal lighting solutions.
